Art Unit: 1731

The final rejection is withdrawn and the following action given:

The art rejections under 35 USC 103 have been dropped in view of Applicants arguments in the Brief.

Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "without substantial increasing of the copper number", when read in view of the specification includes increases up to 100%. A doubling of the copper number is a substantial increase in copper number. Thus the term is indefinite.

The argument that a 100% increase is not a substantial increase is not convincing. A 10% increase would be a substantial increase; a 100% increase is an extremely large increase and would not be considered "without substantial increase".

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground

provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-11 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-19 10/128,975 of copending Application No. S.N. 10/128,973; or over claims 1-8 10/128,975 of copending Application No. S.N. 10/128,973 10/128,975. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims only differ in scope with those of S.N. 10/128,973 or 10/128,975.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
